PORT OF MELBOURNE A LEADING EMPLOYER, SAYS NEW INDEPENDENT STUDY

The Port of Melbourne (PoM) has this week been recognised as a Top 10 Best Employer by leading human capital firm Kincentric, joining Coca-Cola Amatil, Fetch TV and Regional Australia Bank in the coveted listing.

The Kincentric Best Employers platform recognises workplace excellence surrounding four key people factors: employee engagement, agility, engaging leadership and talent focus. Kincentric gathers employee opinion from its hundreds of clients before undertaking rigorous benchmarking and arriving at its best employers list.

Port of Melbourne Chief Executive Officer Brendan Bourke welcomed the recognition: “This accolade reinforces the importance we place on establishing and nurturing a supportive and engaging work environment. Most pleasing about our top 10 listing with Kincentric is that it’s actually the opinion of our people.”

Kincentric’s Asia Pacific Middle East and Africa Practice Leader in Culture and Engagement, Stephen Hickey said: “This year, Kincentric once again recognises the Best Employers from Australia and New Zealand for their outstanding efforts in creating a work environment where their people are empowered and committed to excellence. We congratulate all of our Best Employers and wish them even greater success in the years to come.”
