

GRADUATE ENGINEER

Do you want to work with Australia's largest Port?

Our passion for growing trade creates an enduring city port, driving the economy and enriching lives.

The Port of Melbourne is Australasia's largest maritime hub for containerised, automotive and general cargo. It is a key economic asset for businesses and people across Victoria and Australia. With a view to deliver world class safe, responsible and reliable port facilities and services, the Port of Melbourne is currently seeking a Graduate Engineer to join the team.

Based in our new modern offices in Docklands, you will be part of an inclusive and collaborative workplace learning from a group of passionate professionals who work safely and responsibly.

You will play a key role in supporting the operations team in the development of engineering strategies, asset plans and management of maintenance contracts.

About you

- ⦿ Civil Engineering Degree or graduating by end of 2019
- ⦿ Good problem solving and writing skills
- ⦿ Be able to communicate with a broad range of people
- ⦿ Knowledge of asset management and engineering principles
- ⦿ Possess a current driver's license.

To obtain a copy of the position description, please contact Robyn Leonard at jobs@portofmelbourne.com.

Applications including a covering letter and responses to the Selection Criteria should be submitted to jobs@portofmelbourne.com or by clicking the "apply" button. Applications close Friday 17 November 17.
